Green Suites 5* Boutique Hotel: the only hotel build in Athens in 2020

EPIKYKLOS construction company We create the spaces that shape us

Our vision is to create a more beautiful world; hence, our projects are devoted to well-being with genuine interest in man and high moral values.

Our 11 years of experience, 600 completed projects and 90,000sqm of constructed areas, have proven to us that man has a responsibility in the way it intervenes in space, while space has the dynamic to change the way people live within it.

We prioritize the human element in everything we do. We strive to become acquainted with our customers in order to offer them a functional space that is inspired by their own, personal traits – a space for work or living that will allow them to lead a harmonious life.

To achieve our vision, we invest in honest human relationships based on respect and high moral values. Trust, honesty, passion, a human-centred approach and social responsibility are the core values that characterize our company's activities and reso-

nate with our every step.

Thanks to our excellent know-how and persistence for perfection and innovation, we achieve extraordinary and long-lasting results. At the same time, we operate with transparency, and approach every aspect of our work in a holistic manner. We can guarantee each project's on-time delivery and offer competitive costs, while taking into account your wishes and respecting your budget.

CONSTRUCTION & RENOVATION

We approach construction and renovation with experience, sophistication and high architectural standards. These values are vital for a fully guaranteed and financially transparent process that will render a new home not only a life reward, but also an excellent investment.

TOURIST PROPERTIES

We enhance the tourism industry through

unique branding, design and construction services. These we treat as parts of a single equation solved effectively, promptly and cost-efficiently, enabling the client to lead their competition.

WORKSPACES

We believe that a workplace must be designed to stand out in order to ensure the success of a business. As with every EPIKYKLOS project, workspaces are always delivered within the desired budget and timeplan.

COLLABORATIONS

We foster successful collaborations with architects and engineers of all specialties. Our respect for design and fine construction builds strong professional bonds under a common vision, which turns the EPIKYKLOS team into a valuable partner.

INVESTMENTS

We attract investors, thanks to our leading position in the real-estate market, the reliability of our partners, and the creativity and innovation that charac-

terize our projects - all success factors that are valuable to investors wishing to pursue opportunities in the Greek market.

COMMERCIAL PARTNERSHIPS

We maintain commercial partnerships with high-quality material and product vendors, maximizing the construction speed while minimizing the cost.

RESEARCH

We invest in research for cutting-edge construction methods and novel materials, all the while adopting 3D printing and other innovative techniques that leave their mark on each project.

INNOVATION

We offer innovative solutions to our customers. EPIKYKLOS is the first company in the field of renovation that has created economical renovation packages for all. We also provide our clients with a new innovative online app that allows them to be informed real-time about the progress of the construction or renovation of their space.

CULTURAL EVENTS

We actively participate in local shows and other cultural events that have an impact and promote growth, driven by our sense of social responsibility.

At Epikykos, we are dedicated to man and space, and firmly believe in the constant improvement of our work. We remain true to our vision for a more beautiful world, devoted to creating spaces that shape us.
